BioBoard Gen2

KITCHENS FOR THE FUTURE

When you buy a kitchen you make an important decision - for yourself, for your home and for the future. Not only design, functionality and quality play a critical role here, but also sustainability. That's why we offer Greenline - environmentally friendly kitchen cabinets. Greenline kitchen cabinets are made of BioBoard, an extremely stable material and 90% of this material is recyclable. BioBoard Gen2 complies with

the strictest emission standards. When it comes to the emission of formaldehyde, BioBoard Gen2 meets the F**** standard, which is the world's strictest standard for chipboard which is even higher than the standards of CARB2 and E05. BioBoard Gen2 guarantees a healthy indoor climate. This means that, in addition to your home having a wonderful new kitchen, you'll know you've been eco-friendly.

LESS IS MORE

ZEROX HPL XT | CLASS

UMBRA XT | LAVA XT | BLACK VI

Are you looking for something different - the beautiful and practical handleless kitchen might just be what you want! Modern sleek handleless doors and glass doors with thin metal frames. Or the New Dimensions base cabinets, which offer 16% additional storage space compared to a standard unit and allows to plan with a small plinth only.

The floating worktop on the kitchen island makes the kitchen to a meeting point for the whole family. The floating Cubes with the built-in appliances are a totally new design idea and you can rightly say that this handleless kitchen adds a new dimension to the existing kitchen ranges.

HANDLELESS KITCHENS

We understand perfectly why our unique handleless kitchens are so popular. With the integrated handle rails we create a modern minimalistic kitchen design with clean lines. Which in turn creates a calm look. An additional advantage of our handleless kitchens is the wide variety of possibilities, which means we always have a finish to

match your kitchen. For example, do you prefer a handle rail profile in a stainless steel colour or similar to the cupboard colour? It's your kitchen, so it's up to you. Good to know: almost all of our kitchen ranges are available in a handleless version.

ZEROX BLACK LINE EUCA MOCCA KQ | EUCA CARAMEL KQ

Do you like a kitchen with an extra sleek and elegant look? Then our black line will undoubtedly give you the edge, or as the by the name a black line. Because it is precisely that horizontal and vertical black edges along the tall cabinets and the island that creates such a stunning effect throughout the kitchen. Black

accents are also easy to combine with colours such as Euca Mocca and Euca Caramel. And, of course, the dark worktop, tall units, glass doors and lighting in the cabinets also contribute to the overall impressive appearance of this stylish kitchen. In one word? Wow!

CORE CARBON BRUSHED METAL DM

Have you always looked for a connection between your kitchen and your living room? Then take a look at this beautiful and timeless kitchen! The kitchen worktop of the island is divided by a niche in which you can place colourful plants, pictures or candlesticks, to name but a few. The tall cabinets are separated by Cubes that are perfect

for storing cookbooks and kitchen utensils. And the wall unit and shelf create a logical connection to the living room. Last but not least the extra thin cabinet doors are made of aluminium-clad HQF. Because the edges of the doors are faceted, the modern look of the entire kitchen is enhanced.

CERAMICA GREY ROCK CE

The added value of ceramic in a kitchen is unique. Ceramic is both beautiful and functional as a material. Ceramic has a luxurious look and feel and is known for being a very rigid material and therefore wear and scratch resistant. In this kitchen, the doors of the kitchen island and the tall cabinets, the panels and the worktop are made of

ceramic. Furthermore, the cabinets of the kitchen island are handleless - you open the cabinets by just pushing the doors - and the tall cabinets have a vertical handle strip. The contrasting Cubes with kitchen appliances and storage space give the kitchen that extra touch of living room feeling.

STANDARD QUALITY FEATURES

Our kitchens stand for high quality in terms of kitchen doors, ease of use, durability, use of materials and finish. Our kitchens have the following 9 quality features as standard for good reason:

- 1 Pan-drawers fitted with luxury 8 mm smoked safety glass and integrated soft-closing system.
- 2 Extra stable 19 mm-thick horizontal shelves.
- 3 The choice of environmentally friendly Greenline cabinets (see page 5).
- 4 Concealed wall hanging systems.
- 5 The choice of not less than 26 cabinet colours
- 6 Aluminium protection trays under refrigerators, freezers and sink units.
- 7 5 cm additional working space by using a 65 cm-deep worktop.
- 8 Blum hinges with integrated soft-close.
- 9 XTend cabinets for built-in appliances, with doors made to measure without using filler panels.

ADDITIONAL OPTIONS

The ideal kitchen looks different for everyone. So, in addition to our 9 quality features, we offer you many further options. These allow you to implement your personal preferences in all aspects of your dream kitchen:

- 1 A continuous line along the doors and side panels.
- 2 Various drawer box options.
- 3 Glass doors in industrial style, with glass shelves.
- 4 Waste bin systems, so you can separate your waste.
- 5 Various practical interior storage systems.
- 6 Integrated LED lighting inside and outside the cabinets.
- 7 Customisable interiors for drawer boxes.
- 8 Electric door openers.
- 9 Practical storage solutions for corner cabinets.

IRON | ZEROX BROWN STEEL KQ | CITY NATURE OAK FM

Brown Steel and City Nature Oak: that may sound like a big contrast, but how beautiful it is! The light colour and natural look of the island enhance the rustic look of the dark tall units in brown steel. These cabinets fitted with a high-quality laminate door and have a tactile structure. So you feel what you see. The dark part of the island is taller

than the rest and extra cabinet space has been created to have an ergonomic working height. Inside the glass cabinets, which are available in several options, you can present your most beautiful glassware, where the interior lighting creates an even more beautiful look.

POWER SNOW MX | SNOW LX XGS

The word "design" takes on a new meaning thanks to this eye-catching kitchen, where every detail has been taken into account. Looking at the island the extra-thin worktop gives the kitchen an elegant finesse. The handle rails are integrated into the kitchen cabinets, creating clean lines that run along the side of the island. But that's not all.

The wall panels are fitted with horizontal LED lighting and the drawer unit with open pan-drawers gives the kitchen a fashionable appearance. Combined with the extra-tall cabinets with extra-long vertical handles and you'll understand exactly why this kitchen comes high on many wish lists.

QUATTRO | ZEROX HPL XT BLACK CL | BLACK XT

This kitchen is the epitome of elegance and proves that "less" is still "more" -and does so by adding just a few refined details. For example, the side panels of the island are made of a modern dark veneer. The doors of the tall cabinets and the island are made of HPL Extreme material, which provides an extremely matt

appearance and has a large number of advantages compared to regular kitchen doors. Among other things, the material is equipped with anti-fingerprint technology, which makes it super easy to clean.

CUBES

Our Cubes literally and figuratively form the building blocks in your kitchen. Because each Cube helps you to create your own ideal picture. Use the Cubes, for example, to place your kitchen appliances, as extra storage space for your cookbooks and kitchen utensils or as a wall unit to create a natural transition from your kitchen to your living room. The Cubes are made of the extra

matt HPL Extreme material that not only looks stylish but is also scratch-resistant and features anti-fingerprint technology. Any oily fingerprints can be removed in no time. Our Cubes are available in the colours Black and Snow, to set a modern accent to the various door colours we offer.

WINE CABINETS

Good wine speaks for itself, but which wine lover can say no to a beautiful storage cabinet in the kitchen that shows the wine bottles? Our wine cabinets are available in various sizes such as tall cabinets and base cabinets. They include solid oak bottle racks and offer

the option to choose from various glass colours for the door. In addition, you can also decide for a wine cabinet that can be opened on two sides, so that it can serve as a connecting element between your kitchen and your living room.

WALL SOLUTIONS

Do you want to make use of empty walls in your kitchen or maximise space behind the worktop? Our panelling system Wall solutions will offer you lots of design options. It is equipped with thin black metal rails which can take shelves and several storage options. We offer smoked glass shelves, black metal shelves and shelves in different cabinet colours and as

accessories you can have a tablet / cook-book holder, a foil dispenser or a knife block. And if you get tired of the layout after a while you can rearrange the wall very easily! Now all you have to decide is whether you want your wall panels in the same colour as your kitchen, or in a contrasting one. But we're sure you'll figure it out!

FRAMES

Our Stack-up frames create the perfect connection between your living room and kitchen. The frames are made of brushed aluminium frames and melamine or veneered panels for a tough industrial look.

Ideal as storage space, trophy cabinet or for the family portraits next to your dining table. And whether you stack them or hang them, our Stack-up frames are guaranteed to be an asset to your interior!

NEW DIMENSIONS

Because people are getting taller and taller, the ergonomics of kitchen cabinets have to follow this evolution. With 'New Dimensions', we not only meet this demand for an ergonomic working height, we also add an extra dimension when it comes to extra storage space and extra-thin worktops. We offer you a choice of 4 different options for your kitchen cabinets:

- 1 The [X13] is a base unit with a carcass height of 78 cm. Compared to the old standard kitchens, which had a carcass height of only 72 cm, that is an extra 6 cm of height. In addition to the more ergonomic working height, this also means that the [X13] offers additional storage space.
- 2 The G78 has the same dimensions as the [X13], but is also available in a handleless version.
- 3 The New Dimensions base cabinet has a carcass height of 91 cm, which is 13 cm taller than the [X13]. Ergonomically very attractive in terms of both working height and storage space, this means an additional 16% extra storage space compared to the [X13].
- 4 The G91 has the same cabinet height as the New Dimensions, but the difference between both base units is that the G91 is the handleless version.

QUALITY CABINETS

You want to enjoy your new kitchen for years to come. Of course you will do. That's why all our kitchens come with 19 mm thick horizontal shelves. In combination with the 8 mm thick back panel which is fitted with screws and routed into the top and bottom shelf this provides extra stability for our kitchen cabinets. Moreover, we use the sustainable, green and environmentally friendly Greenline BioBoard Gen2.

TECHNICALLY SMART

By using extra deep cabinets, we create extra space for plumbing and connections behind the cabinets. The dark metal hinges are adjustable in three dimensions. The kitchen cabinets have continuous bottom shelves and our wall cabinets are fixed with a concealed 3-point metal hanging system which is adjustable down to the millimetre.

AN EYE FOR DETAIL

The shelf support holes have a diameter of 3 mm and to ensure that the shelves are fixed properly they come with a locking pin. The cabinets have a waterproof edging on all sides. On special sink units back panel is pulled forward and removable. And underneath the fridge and the sink unit there is an aluminium water tray. You see, we've thought of everything!

CITY CHIQUÉ

INDUSTRIAL FRAMES

LED LIGHTNING

SHERWOOD

ZEROX | IRON

GOLDRUSH KQ | SHERWOOD BRONX SY

Industrial style is a very popular trend and this kitchen is a prime example of the beauty of this trend. Typical are the cabinet fronts in trendy Goldrush and wood decor Sherwood. Combined with the Industrial Style glass cabinets and the open shelf unit this is the perfect design for a modern loft. The extra-deep worktop provides

additional working space. The metal frames for the open shelves are not only practical but also ensures a continuous line of the shelves. And the integrated LED lighting provides the exactly the amount of light you just need.

GLASS CABINETS

Glass doors are a popular solution if you want to put your favourite kitchen utensils, elegant glasses or expensive crockery in the spotlight. And because tastes differ, we don't offer you just one type

of glass in one frame colour and one size, but let you decide how to design your own unique glass cabinet.

ZEROX HPL XT TERRA GREY XT

Industrial, sleek, modern... All beautiful of course, but what if you want a more casual look for your kitchen? Then choose this kitchen! By using open cabinets on the back of the island and stack-up frames against the wall, this kitchen offers various possibilities to decorate your favourite spot in your home to your own taste. Also useful here are the shades of grey, which can be combined with just about any

colour. And the anti-fingerprint technology is a wonderful invention for kitchens where little (and large) rascals walk around with dirty fingers. Another nice finishing touch are the LED lights under the wall shelf, which provide an extra warm colour to this kitchen.

EXTRA
HIGH

ZEROX BLACK LINE TERRA GREY FM

This fantastic kitchen proves that small details can make a big difference. The additional units on top of the bank of tall units give the whole kitchen a generous appearance. The black integrated

handle on the kitchen doors fits perfectly into the overall design of the kitchen. It's also a clever design idea to have the open shelf units with matching black edge to shape the clean lines of this kitchen.

ZEROX | JEWEL SHERWOOD MANHATTEN SY | PEARL TITANE PS

This kitchen will undoubtedly be the new center of your home. The combination of fronts in different colours and dark metal tones creates a sleek and atmospheric look, which is accentuated by the black plinths. With the industrial shelving system, you'll have plenty

of room for your favourite crockery and your collection of cookbooks. The XTend kitchen cabinets ensure that no space is lost above the built-in kitchen appliances. And while you're preparing dinner, your guests will enjoy a glass of wine at the breakfast bar.

YOU | CLASS SNOW MX | SNOW VI

Matt and high gloss meet each other in this modern kitchen in the colour Snow. The doors are handleless, which makes the kitchen look even sleeker. The island is matt lacquered and the bank of tall units is made of glass laminate, which has a deep gloss effect. This gloss is

particularly noticeable by the use of the black handles over the full height of the cabinet doors. To make everything extra tasteful, other details, such as the plinths, the supports of the wall shelves and the table legs, are also black.

LED LIGHTING

No doubt you know about the advantages of LED lights. They are energy efficient and have a long lifespan. But what you may not know is that by using LED lighting you can transform any cooking space into a warm and colourful room full of atmosphere. The biggest advantage of LED lighting is that we can easily integrate it into your kitchen in many ways, including the stylish dark-coloured fixtures. You have a choice:

- 1 Horizontal LED lighting.
- 2 Vertical LED lighting.
- 3 Round LED spotlights.
- 4 Square LED spotlights.
- 5 Integrated LED spots for glass shelves.
- 6 Up-and-down LED lights that illuminate both, the worktop and the interior of the cabinets.
- 7 LED lights in the handleless-profile to accentuate this part of your kitchen.

Another great advantage of our Emotion LED lighting is that you can adjust the brightness and colour of the light yourself. Via a touch switch, a remote control or even WiFi using an app. So, do you really want your kitchen to shine? Then go for one of our LED lighting options!

KARO | LUXIO

CITY GREY OAK FM | TERRA GREY LX

A special combination in grey. The island is finished in a fine matt melamine with wood decor in the colour City Grey Oak. The doors have a thin frame, which is kind of a modern shaker door. It provides a contemporary sleek look. For a long time, thick worktops were used

but nowadays they are thin to give the kitchen a modern look. The tall units have the colour Terra Grey and are matt lacquered. The black details, such as the plinth, the square knobs and the supports under the wall panels, connect the whole.

CUSTOMISED
DOORS

MODERN
FRAMED
DOORS

INDIVIDUAL

INTEGRATED
TABLE

HANDLE-LESS

INFORMA | ZEROX HPL XT DAYLIGHT GREY MX | ZEROX NOGERO XT

Can you see yourself standing in this beautiful kitchen? Note the clever way in which the table has been integrated into the island. The doors on this kitchen have an integrated milled handle profile that guarantees a sleek design. The side panels and top shelf of the mid-height units with the appliances on the back are

extra thin. The extra-tall units for the fridge and freezer in a wood design have a vertical bar handle and the doors made as one piece. And imagine how much storage space this kitchen offers. Wonderful and practical!

STYLES, SHAPES AND COLOURS

The colour, style and finish of a front is crucial for the look of your kitchen. And because tastes can be very different, we offer you the largest collection of fronts. Choose from over 3,600 possible combinations. Do you want to go for a light, neutral or dark colour?

Do you want a brushed or sandblasted finish? Or is it going to be that super matt or glossy front? Do you fancy for a decorative groove or a frame - or does the surface need to be completely flat? It's up to you, because it's going to be your kitchen.

**Scan the QR code to
view the entire range.**

HOME WHITE MX

This kitchen is a classic door in a modern design. The Industrial Style glass doors with Quadrant Glass in the black 50mm wide frame are a total contrast to the shaker door with vertical grooves but this is what creates the modern effect on this kitchen. The modern moulding along the top of the kitchen, the black handles and the glass shelves in the

kitchen cabinets also are a beautiful contrast between classic and modern. And the addition of a black plinth and a black wall board gives the kitchen that special contemporary look. It's a real beauty, this kitchen.

QUADRAT
GLASS

ZEROX CITY NATURE OAK FM | BLACK XT

This kitchen demonstrates the power of contrast and harmony. In colour, but also in appearance and functionality. The doors, cupboards and worktop are perfectly matched and the colour City Nature Oak is mixed with contrasting, stylish black. The kitchen contains both, handleless cabinets and cabinets with an integrated handle. And the

variation in open shelves and cabinets create modern break-ups in the overall appearance of this kitchen. In addition, the extra tall drawers open with a push-to-open technology. Speaking of drawers, the fronts and sides are available in various colours to optimally enhance the contrast!

KNOBS AND HANDLES

In kitchens, the handle on the door is the cherry on the cake. The right handle can finish your kitchen perfectly. With more than 100 options to choose from, we offer you the largest collection of handles. Choose from a variety of shapes and styles. From knob and bar handle to shell

handle and ring handle. And from sleek design handles to modern or nostalgic handles. Of course you can also determine the material and colour yourself.

**Scan the QR code to
view the entire range.**

SAVIO STONE HL

Fresh, light, spacious and with a perfect finish: that is the description this kitchen deserves. Because of the spacious corner unit and the beautiful wall units, this kitchen offers precisely the extra storage

space you desire. This corner setup has a classic and at the same time modern touch.

DUET | MEMORY WHITE LX | NEW FOREST OAK FL ZERO

A stylish kitchen with a rustic modern look. The front on the island has a double vertical groove in a 10 cm pattern and this groove is even shown on the end panels. The chunky black handles and the black plinths set an accent to the white doors. This is a very stylish

combination which is complemented by the two tall units in a rustic real wood with visible knots. The oak wood is also used for the drawer boxes for a touch of pure luxury.

DOORS UP TO
234 CM IN
ONE PIECE

ERGO SNOW MX

This modern kitchen offers both - class and cosiness. This is partly due to the wooden drawers and drawer dividers. The 65 cm deep worktop gives you extra work space and makes it easier to clean the space behind

the tap. In addition, the wall cabinets are fitted with mouldings to complete the elegant appearance of this beautiful kitchen. Even more good news: the framed fronts are available in various colours and combinations!

PRACTICAL STORAGE

The ideal kitchen is beautiful and user-friendly. Of course you want to have enough space to store all your kitchen utensils. That's why, in addition to the standard shelves in the kitchen, we also offer you the following practical storage options:

- 1 Internal drawers and pan-drawers. Available for all drawer options and always neatly concealed behind a door.
- 2 The Tandem larder cabinet. An ideal solution if you want to store a lot of food. Once door is opened the shelves move forward and can easily be accessed.
- 3 User-friendly storage systems for cooking utensils and cleaning utensils.
- 4 Separate waste bin systems, so you can contribute to a cleaner environment.
- 5 Open niche with pull-out drawer, which, for example, lets you pull your coffee machine towards you in one convenient movement and push it back into the cabinet again afterwards.
- 6 Handy storage system for wall cabinets. This also makes it easy to reach kitchen utensils that are higher up or at the very back, without having to use steps.
- 7 Different drawer layouts, which in some cases can be tailored to the style and colour of your kitchen.

PAINTED COLOUR OPTIONS

EXPERIENCE
THE WOOD
OPTIONS
IN-STORE

HORIZON BLACK CL

Horizontal lines were the starting point for the design of this fascinating kitchen. This can be seen, for example, in the horizontal profiling and vertical wood grain on the doors of the kitchen cabinets, which creates a beautiful grid effect. The doors are equipped with stylish handles.

And the wooden worktop and wooden bar stools form a beautiful combination with the black kitchen cabinets, the wall cabinet and the Industrial Frames.

MEMORY

PASTEL LOAM OL

Is it a living room, or a kitchen? It's a live-in kitchen! It's also rustic, thanks to its wooden fronts with large grain. The tall cabinets are built into the wall and equipped with built-in appliances with Paronama-

design. The island has an open lower cabinet and a bar/seating area for your partner or child. What's better than cooking with some pleasant conversation?

DRAWER BOX OPTIONS

Drawers have a major impact on the appearance of your kitchen. That's why our drawers are available in different versions made from wood, metal or even glass. Our metal Zircon drawers are equipped with the latest technology and come in the colour Zircon anthracite.

Of course we also thought about the ease of use. That's why our drawers are fitted with a soft-close system as standard. Because the drawers are fully extendable, you can easily reach everything. Beautiful and practical.

ZIRCON 950

Super trendy drawer system, finished in the modern Zircon anthracite colour with dark glass sides on the pan-drawers. We are proud to use the Grass drawer runner technology. Of course, the drawer accessories are also available in matching colours.

ZIRCON 1400

If something above the high standard is required. The Zircon 1400 drawer system is also available in the dark Zircon anthracite and also has dark glass sides on the pan-drawers. As the runner technology is incorporated in the thin strip of metal, there is room for an almost completely dark glass side on the pan-drawers.

ZIRCON CITY

The Zircon City drawer system is identical to Zircon 1400, with the only difference being that the sides of the pan-drawers are wood-coloured instead the glass. When it comes to customizing, you can choose from the colours City Brown Oak, City Grey Oak and City Nature Oak.

WOOD

This solid oak wooden drawer system is a feast for the eyes. It has a special non-slip bottom. This drawer is also available with matching cutlery compartments.

MELODY | ZEROX PASTEL SMOKE S | SNOW FM

This kitchen is for real wood lovers! The modern, white island consists of a cooking and sink area, including a dishwasher. This island is combined with a beautiful, large bank of tall units containing all the necessary built-in appliances, such as a combi-oven and a large fridge-freezer. The wooden front of the wall cupboard is saw-rough finish

with a very rough and textured surface. The open niches in the tall housings give the kitchen a more open effect. See how the handle perfectly matches the robust look of the front. And because the handleless island has a thin worktop and thin panels, the kitchen gets a super-sleek look.

MORE COLOURS
AVAILABLE

ERGO | MEMORY NEW FOREST OAK FL

2 for the price of 1 often sounds too good to be true. But in this case it really is true because we've combined 2 wooden doors. The result is breathtaking and harmonious. Both the doors of the island and the doors of the tall units are fitted with fronts from our Wood Unlimited

range. The kitchen island has a cosy bar area. The open shelves on the wall contain atmospheric LED lighting. So for once you don't have to choose between your 2 favourite kitchens!

UTILITY ROOMS AND LIVING ROOM FURNITURE

UTILITY ROOMS

Every kitchen should have one: a utility room. Not only in terms of your home's layout but also in terms of its appearance. That's why we can supply a utility room in exactly the same style as your kitchen and create extra storage space for you and your family. The washer and dryer for example can be fitted in an ergonomic height and makes that daily housework far easier. This design makes this utility room not only beautiful, but also user-friendly.

LIVING ROOM FURNITURE

Wouldn't it be nice if your new kitchen and your living room were more compatible? We make it possible! We have various options for this, ranging from floating base cabinets to sturdy metal frames. Do you like the wooden drawers in your kitchen? Then you can also have them in your living room furniture!

INTERNATIONAL PERFECTION

Rotpunkt has been producing kitchens for customers around the world for more than 90 years and is known worldwide as a quality brand in the field of modern, high-quality kitchens. When you choose a kitchen from Rotpunkt, you're choosing a durable kitchen that will give you optimal comfort, years of pleasure and last but not least a

contemporary design. Kitchens with a wide choice of colours, materials and sizes. Equipped with the latest technology and a high degree of user-friendliness, thanks to various convenient solutions. Rotpunkt, international perfection.
